Serial Nos. 5-9

Part B. for January, 1915

SUBJECT

Sanction of local allowance to the medical officer in charge of the Vaccine Institute, Bangalore

From the Sanr Comr, No. 6362 of 10.6.14.
States that when Asst. Surgeons are posted for duty in the Vaccine Institute they will be deprived of their income from private practice as it will be detrimental to the interest of the Institute and requests that the grant of local allowance of Rs 50/- per mensem, already recommended may be sanctioned to the Asst. Surgeon.

The Sanr Comr & Comptr, No. 4480-1 of 7.12.14.
Sanctions the grant of a local allowance of Rs 50/ per mensem, to the medical officer in charge of the Vaccine Institute, Bangalore, subject to the condition that he will not be allowed to take up private practice.

BRIEF ABSTRACT OF LETTER.

States that when Assistant Surgeons are posted for duty in the Vaccine Institute they will be deprived of their income from private practice as it will be detrimental to the interest of the Institute and requests that the grant of local allowance of Rs 50/- per mensem already recommended may be sanctioned to the Asst Surgeon.

NOTES AND ORDERS.

In this office No 11749 dated the 22nd May 1914, the Sanitary Commr was informed (Govt No 80-13-4) that Govt are unable to accede to his request to grant a local allowance to the Medical officer in charge of the Vaccine Institute. He again urges the necessity for the grant of the local allowance.

3. I learn that while Mr. Abbey was in charge of both the L. Asylum & the V. Institute, he was drawing an allowance of Rs 100-0-0, besides his free quarters, and when the Local Institution was taken away from his charge, the allowance was reduced to Rs 50. This clearly indicates that the charge of the V. Institute was meant to carry a local allowance with it, irrespective of the free-quarters given to the occupation of the medical officer in charge. And it stands to reason that if we remove particular officer in charge from taking up private practice, we ought to compensate him for this loss & give him a suitable allowance. In these views, the recommendation

All officers of the Sanitary Dept have been debarred from private practice. Lately the Officer in charge of the Lunatic Asylum and Medical Stores has been similarly debarred. If the preparation of the lymph is to be made satisfactorily the work requires the constant and continuous attention of the Officer and the lymph should also be examined bacteriologically. I think it is very desirable to debar this Officer also from private practice and give him a local allowance of Rs 50 p.m. to compensate him for the loss. The only objection that can be pointed out against this suggestion is that as the Officer belongs to the General Medical Service he is likely to lose touch with his profession and when he reverts to the General line disqualification from active practice is likely to serve as a handicap. The remedy for this seems to be either to fix a definite term for such

13 *Submitted to His Highness.*

These papers relate to the recommendation made by the Sanitary Commissioner to the effect that a local allowance of Rs.50 per mensem may be granted to the Medical Officer in charge of the Vaccine Institute Bangalore.

2. When Mr. Abboy Naidu was in charge of both the Lunatic Asylum and the Vaccine Institute, he used to draw a local allowance of Rs.100 per mensem, apart from the privilege of free quarters. When the Vaccine Institute was taken away from his charge, his allowance was reduced to Rs.50.

3. The Senior Surgeon twice recommended thereafter that a local allowance of Rs.50 per mensem may be granted to the Medical Officer in charge of the Vaccine Institute. Government took the view that no case had been made out for the grant of such allowance in addition to free quarters.

4. In his letter dated 10th June 1914, the Senior Surgeon represents that, in lieu of the privilege of private practice which the officer now enjoys, a local allowance of Rs.50 per mensem may be sanctioned. The Council are of opinion that the proposal may be sanctioned on condition that no private practice is allowed.

5. The recommendation of the Council may be approved.

19 I do not understand why the matter has come to me for concurrence at this stage, viz. after His Highness' sanction has been accorded. Under the rules, the case should have come to the Financial Branch for opinion at an earlier stage. In this case, the claim for local allowance first came before Government in January 1914 and I had an opportunity in the usual course, of noting on it. I invite attention to my note dated the 4th February 1914 on page 3 of this file (Serial Nos. 1 & 2). On this the claim was rejected. The matter was again brought up in April 1914 when the claim was again rejected. It is now brought up for the third time in June 1914; the case is dealt with without the usual consultation in the Finance Department; it is passed through the Council and submitted to His Highness the Maharaja; and, after His Highness' commands are obtained is sent to the Financial Secretary for concurrence before issue. I leave it to the Government to consider whether the case has been fairly dealt with as far as the financial aspect and the financial branch are concerned.

Flag A.
Separate collection

2. As the case has now come to me for an expression of opinion, I can only respectfully represent that, in my humble opinion, the allowance

Serial No.

is not justified, for the following reasons:-

(a) The occupation of a decent building for residence free of rent or a house rent of Rs.50/- which has been sanctioned by Government is sufficient compensation for loss of private practice, as house rent and income from private practice go in Bangalore

(b) The charge of the Vaccine Institute is by no means heavier or more responsible than other medical charges. In fact, the amount of work in the Vaccine Institute hardly justifies its existence as a separate charge The nature of duties do not require that prohibition of private practice on the part of the officer in charge should be secured at heavy expense to Government viz. Free residence plus a local allowance of Rs.50/-.

(c) The arguments urged in support of the claim for local allowance in the Senior Surgeon's letter of 24th January 1914 was "the tiresome nature of the work requiring the attendance of the Assistant Surgeon at any hour of the day and night and of the absence of any private practice arising from the nature of his work." No new facts whatever have been brought forward in the subsequent representations.

Notes - Contn. sheet.

328 Serial No.

representations. My note of 4th February 1914, meeting the Senior Surgeon's arguments may be kindly read in this connection.

(d) The Senior Surgeon's argument in his last letter of 10th June 1914 is this: "In the absence of an allowance and the restriction regarding private practice the medical officer in charge of the Vaccine Institute is liable to be tempted away by private practice and this will be detrimental to the interests of the Institute." This argument applies with much greater force to other medical officers who have heavier and more responsible work and if the force of this argument is accepted, then all medical officers will have to be prevented from taking private practice by the grant of free quarters and a local allowance.

In my respectful opinion the grant of free residence or a house rent of Rs.50/- per mensem is adequate compensation for loss of private practice in this case and ~~that~~ the necessity of securing ~~abstinence~~ abstention from private practice by paying a house rent of Rs.50/- and a local allowance of Rs.50/- does not exist.

Second Member of Council. 12/11 Ow 13/11

GPB—1,000—8-2-14

26 *Submitted to His Highness.*

In order dated 25th August 1914, His Highness was pleased to approve of the recommendation of the Council to grant a local allowance of Rs.50 per mensem to the Medical Officer in charge of the Vaccine Institute.

2. On the papers being forwarded to the Financial Secretary for acquiescence in the orders proposed to be issued, he states that, on the merits of the case, the grant of the allowance in question is unjustifiable as the charge of the Vaccine Institute is by no means heavier or more responsible than other medical charges and the grant of free residential quarters or a house rent of Rs.50 per mensem in lieu thereof already sanctioned to the officer concerned, is a sufficient compensation for loss of private practice.

3. The matter was again considered in Council on the 18th instant. The Council adhere to the opinion already recorded by them that a local allowance of Rs.50 per mensem may be given to the officer concerned on condition that no private practice is allowed. The charge of the Vaccine Institute involves the constant presence at the spot of the officer in charge and also an exacting degree of minute attention to details. It is very responsible in character as the purity of lymph, which is most essential in the public interests, can be secured only by the exercise of the utmost vigilance in the process of manufacture.

4. The above recommendation may be graciously approved.

D.M. Narasinga Rao Esq., B.A., B.L.,
Secretary to the Government of
H. H. the Maharaja of Mysore, Genl. and Rev. Deptts.,
BANGALORE.

Sir,

Adverting to your letter No. 11749 Sany. 80-13-4 dated the 22nd May 1914, I have the honor to state that the work in the Vaccine Institute - simple as it may appear to be - is yet one requiring special training. It was with the object of having a number of Medical Officers trained in this branch of work that I proposed the posting of a number of young Assistant Surgeons in rotation for a period of two years at the Vaccine Institute vide my letter No. 3036 dated the 24th January 1914. Almost all Assistant Surgeons take private practice and the lowest limit that could be placed on their income is Rs. 50/- a month. When such Assistant Surgeons are posted for duty at the Vaccine Institute they will not have time to take private practice and it will be a great hardship to them to be deprived of their income from private practice. If the Medical Officer in charge of the Vaccine Institute be granted an allowance of Rs. 50/- he could be prohibited from taking private practice. In the absence of an allowance and the restriction regarding private practice the Medical Officer in immediate charge of the Vaccine Institute
